"I knew that George and the craftsmen at Linn's could take my car bar concept and make it a one of a kind reality. Rolls Royce couldn't have done it better."

- Ray Netherwood  
Destin, Florida

### *Kitchen for my car?*

When Ray Netherwood decided to have a unique bar installed in his touring car, he thought of George Hambleton and the kitchen design team at Linn's Prestige Kitchens.

George and the team had previously designed and installed a unique, all-bamboo kitchen and two entertainment centers for Mr. Netherwood's home in Destin, and Ray knew George was up for the creative challenge.

With a background in architecture and construction, George puts his heart into designing for his clients. For fourteen years he has been helping Linn's Prestige Kitchens' clients fulfill their kitchen dreams.

Ray's challenge was all about "The Details." His 2007 Rolls Royce Phantom EWB was one of only 43 cars built, making it truly unique.

Mr. Netherwood wanted to incorporate two ice buckets, six crystal champagne flutes and five drink tumblers, along with storage for mixers and mini liquor bottles. All were meticulously measured for the most efficient and attractive use of space.

George started with preliminary sketches, photographs, and measuring the car's interior. The

team of craftsmen at Prestige's cabinet shop constructed a styrofoam mock-up, and then a prototype was built for Ray's approval before construction could begin.

"We had to straddle the bar cabinetry over the transmission hump" said George; "and this mock-up helped us discover extra space that became storage drawers for napkins, snacks, etc." We also had to incorporate the car's rear air conditioning system; allowing it to freely flow through the bar.

Chrome-finished AC vents, trim piping, and tumbler holders were accents; along with a "piano black" high gloss finish to compliment the Rolls' interior. Even the bar tools had to be incorporated and designed so that everything would stay secure and easily accessible while traveling. This is truly CUSTOM CABINETRY!

Whether you are building your first budget minded starter home or...  
Finally building the gourmet kitchen or luxury bath you have dreamed about...
